

### Springboard: Launching Your Personal Search for Success

G. Richard Shell '81

Penguin

Many of us fall into the work we do, the life we live, without a plan or a clear set of goals. If you could follow your dream, do you know what it would be? If the idea of figuring that out intrigues you, *Springboard: Launching Your Personal Search for Success* will help you understand how family, friends, and culture have influenced how you judge success. Then you will be able to pay attention to what really matters to you, not what you think you should want.

Shell draws on decades of research and mentoring experience to give compelling examples of people who changed directions or careers to do the things they find most rewarding (a former student of Shell's left a business career to work with inner-city high school students; a well-off son of a CEO found fulfillment as a policeman fighting drug lords). The author offers a wealth of insights on happiness, self-confidence, relationships, and careers that can help readers, at any stage, be their own judge of success and live life on their own terms.

G. Richard Shell is the Thomas Gerrity Professor of Legal Studies, Business Ethics, and Management at the Wharton School of Business. He teaches a course on the meaning of success that was the basis for writing this book.

### Spanish-English Dictionary of Law and Business

Thomas L. West III '90

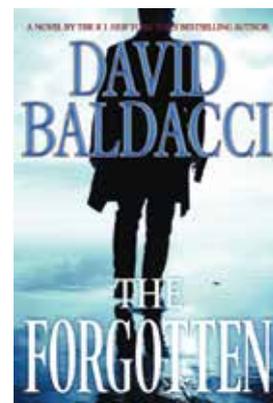

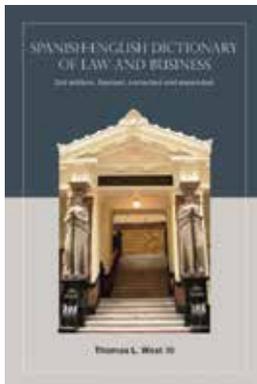

Intermark Language Publications

The second edition of *Spanish-English Dictionary of Law and Business* is a revised and greatly expanded edition of the first. It provides a handy reference to thousands of terms and phrases used in law and business. No other Spanish-English Dictionary includes complete coverage of legal terminology used in all 20 Spanish-speaking countries. It is the only source for translations of terms that are unique to countries such as Colombia, Peru, and Venezuela.

Many entries include not only a definition but also information on the country of use, the area of law, and even references to specific articles of law. The author includes detailed distinctions in defining words that other dictionaries might view as more generic. (The entry for *deuda* (debt), for example, includes 51 specific kinds of debt.) Since terms are not always consistent from one Spanish-speaking country to another, synonyms are often included with country of origin. Carefully compiled over the past 18 years, this dictionary includes terms that are important in understanding new laws in many Spanish-speaking jurisdictions.

The *Spanish-English Dictionary of Law and Business* is an essential reference work for all Spanish to English translators who specialize in legal, business, and financial text.

Thomas West is founder and president of Intermark Language Services, a legal and financial translation services company based in Chattanooga, Tenn.

### The Forgotten

David Baldacci '86

Grand Central Publishing

John Puller, the hero introduced in *Zero Day*, is a U.S. Army Ranger, combat veteran, and patriot. In short, he is a force to be reckoned with. On a break from his assignment as an agent of the Army's Criminal Investigation Division, he takes a trip for some R&R to see his aunt in Paradise, Florida.

He arrives to find her dead. The police label her death an accidental drowning, but Puller suspects it was murder; his aunt had written him a letter recently with references to strange things going on at night, saying things weren't at all what they seemed.

Paradise, with its white sand beaches and manicured estates, at first glance appears to be aptly named, but it also holds something sinister, as Puller discovers. A wealthy man named Peter Lampert runs a global kidnapping operation from his oceanfront mansion. The enslaved women are forced into prostitution and the men deal drugs or become laborers. Lampert threatens all of them that if they try to escape their families back home will be killed. They have no doubt that he would do it.

When Lampert feels threatened by Puller's investigation, he unleashes his private army to eliminate him. Among Puller's unlikely allies are Julie Carson, a brigadier general who can hold her own in a life-or-death fight, and Mecho, an escaped slave
